

Original SAKO spare parts are available in sets, containing all common parts which are probably needed in repairing a certain unit. Some sets can also include optional parts for different models.

When spare parts are ordered, the article number (spare part code beginning S) of the Part or Part Set required should be used to describe the correct option. The serial numbers (1, 2 ...) are only used to make it easier to find a part in the exploded drawing.

Alkuperäisiä, Sako aseisiin sopivia, varaosia on saatavana varaosapusseissa, joihin on ryhmitelty yleisimmät jonkin osakokonaisuuden korjaukseen todennäköisesti tarvittavat osat. Joihinkin pusseihin saattaa kuulua myös vaihtoehtoisia rinnakkaismallien vastaavia osia. Varaosia tilattaessa on aina mainittava tilattavan osan tai varaosapussin S-alkuinen osanumero (Varaosa-koodi). Juokseva osanumero (1, 2 ...) on tarkoitettu helpottamaan osan löytymistä räjäytyskuvasta.

Le parti di ricambio originali SAKO sono disponibili in kit, contenenti tutti i componenti che sono, con buona probabilità, necessari alla riparazione di un assieme della carabina. Alcuni kit possono includere anche parti opzionali utilizzabili per altri modelli.
Per ordinare le parti di ricambio, preghi precisare il relativo codice al fine di evitare errori (ciascuna serie di numeri è preceduta dalle lettere "S"). I numeri progressivi (1,2...) servono esclusivamente per rendere più comodo il ritrovamento della parte di ricambio sul disegno esploso di pagina 46.
